

About AOT Consulting Ltd

Background

AOT CONSULTING is an independent consultancy firm incorporated and registered under the Ugandan law. It specifically targets energy development services in developing countries and emerging markets, with its core business being energy efficiency, renewable energy promotion, environmental and sustainable policy formulation. Additionally, we are strong advocates for clean environment policies. Drawing on the rich and diverse technical experiences of a very dedicated team, AOT CONSULTING LTD consistently delivers top-notch services to its esteemed clients.

At AOT CONSULTING, we believe that sustainable energy development is at the heart of socio-economic transformation of our communities. As such, we pride ourselves in partnering with our clients to get the best of these technologies, with a keen interest in private sector development.

Expertise

Drawing on the wealth of expertise of our senior partners in various fields of engineering, we have the potential to match and even better services offered in this field in the East African region and beyond.

Our core competences are energy access, energy efficiency, renewable and clean energy, climate change and adaptation.

Our Core Values

1. Integrity
2. Excellence
3. Relationships
4. Innovation
5. Efficiency

Our Services Themes

1. Energy Consulting, Advisory and Studies
2. Energy Project Management
3. Energy Efficiency and Management
4. Engineering, Procurement and Construction (EPC)
5. Off-grid and Distributed Renewable energy solutions

Vision

To be the leading sustainable energy solutions consultancy in Africa's emerging markets

Mission

One-stop solutions centre that meets your energy needs using appropriate technologies

Business Address

Block 216, Plot 4247, Ntinda-Kisaasi Road next to Uganda Clays Ntinda¹
